

BULKA BAG TYNES

Bulka Bag Tynes :

Bulka Bag Tynes are designed to carry two bags and be able to safely lift to a height to load any bulk handling machine (bulk stone duster, grout mixer etc.)

No need for chains, shackles or hooks.

Bags can be lifted to the roof without the loss of height from a jib and chain.

No pallets required.

Bags can lift bags out of a pod, trailer or duckbill.

Rated Capacity: 2400kgs (2 x 1200kgs Bulka bags)

Tare Weight: 765kgs

Designed to: Australian Standard AS3990

MDG15 CL.3.10
